FREESTYLE WORKSHOPDANCING WITH DOGS!

Musical Freestyle is a choreographed musical program performed by handlers and their dogs. The object of musical freestyle is to display the dog and handler in a creative, innovative and original dance, using music and intricate movements to showcase teamwork, artistry, costuming, athleticism and style in interpreting the theme of the music. Heelwork-to-Music incorporates traditional dog obedience and the art of dressage with the inclusion of musical interpretation, dance elements, and costuming with an emphasis on non-standard obedience movements.
