

# Doggy Paw Print Birthday Cake

## Materials:

favorite cake mix -- one box (or two boxes if making two pawprints)

favorite icing -- white icing + food coloring for whatever color you want your paw(s).

Food coloring drops or paste (paste gives brighter colors)

regular round cake pan  
cupcake pan

## Directions:

This cake is very simple. It's one round cake and 4 cupcakes all frosted with an appropriate color and arranged like a pawprint. You can make two of these cakes, depending on how many children will be at the party. You can make the cupcakes a different flavor than the main cake for variety.
