

DOG SLED MOBILE

HOW TO BUILD:

1. Print this page twice, use Crayola® crayons, markers or colored pencils to color all pieces. Cut out all the pieces. (Throw out one of the sleds).

2. Punch holes where all the black circles appear on the dogs and the sled.

3. Fold up all the sides of the sled along the dotted lines.

4. Tuck all "A" tabs inward and fold "B" tabs over the A tabs.

5. Tape the "B" tabs inside the sled. Use yarn or string to attach the dogs and sled. See below. Use a cardboard strip to hang your dog sled mobile.
